Parley Christensen And Max Hayes Head The New Third Party

'Farmer-Labor' Party's Name; 48ers Bolt

CHICAGO, July 15.—Members of the committee of 48, bolting the farmer-labor party, voted this morning to stay in session all day to complete their work. No program or forecast of this work was announced.

At the time of this decision the conference had not assured itself of its status. J. A. M. Hopkins, chairman of the committee of 48, presiding, told the delegates he could not answer what the technical position of the committee was.

Apparently proceeding on the expectation that the committee preserved its entity, Chairman Hopkins proposed that it might either operate in a similar manner to the non-partisan league, endorsing candidates, or it might select a name and where the members of the committee chose, they could run their tickets under this name.

CHICAGO, July 15.—The farmer-labor party, born of a fusion of numerous political groups, today has a platform and has its new candidates in the field for the coming election. Its work was completed at 4 o'clock this morning when its convention, after an all day and night session chose Parley Parker Christensen, Salt Lake City attorney and Max S. Hayes, Cleveland labor leader, as its presidential and vice presidential nominees, respectively.

But the strength of the new movement remains to be seen. The first test came today when a group of dissident delegates, formerly allied with the committee of 48, met and considered placing their own ticket in the field under the 48 banner.

Not all of the forty-eight delegates withdrew from the fusion convention last night when some 100 or more returned to their own convention. Those who remained were rewarded by seeing Christensen, the chairman of the convention, selected to lead the fusion party while the labor leaders contented themselves with the election of their national Chairman Hayes, to second place.

Forty-eight leaders declined to say what effect this concession would have on their course when they met today. It was apparent that Christensen's nomination served to weld strongly the elements remaining in the convention. The report was current that the dissident forty-eighthers would confine their activities today to organizing votes for a purely educational movement.

J. A. M. Hopkins, national chairman of the forty-eighthers, addressed the farmer-labor meeting after reports became prevalent that a plot had been determined upon by him and his friends and denied that such an agreement had been reached. He avoided saying, however, that none was in contemplation and, in statements issued for publication, criticized the dominant power group for its handling of the organization and declared a great majority had been missed.

Not all was harmony in the fusion convention during the hours the platforms and candidates were under discussion. heated debate developed also over the choice of a name for the new local political group. The forty-

50 Men Raid The Dublin Postoffice

DUBLIN, July 15.—Fifty men raided the general postoffice here this morning and carried off all letters directed to Dublin castle, the vice-regal lodge, the chief secretary and under-secretary of the Irish administration.

DUBLIN, July 15.—A patrol of five constables and a sergeant was ambushed last night in the Adam district of county Limerick. One constable was wounded and died shortly afterward.

Third Party Movement More To Be Pitied Than Scorned, Says David Lawrence

BY DAVID LAWRENCE

(Copyright Times Publishing Co.) CHICAGO, Ill., July 14.—More to be pitied than scorned—that is perhaps the best way to size up the third party convention. Its crudeness, its awkward and clumsy efforts to give expression to every conceivable shade of popular discontent, its severance of the two old parties is natural in such a hodge-podge of minority elements but the entire lack of political sense in the gathering or consciousness of team play by which alone a party can make headway is a sad commentary on the liberalism which is supposed to be finding an outlet here.

Dozens of delegates talking at once, resented neither for the gaudy of the chairman nor the fact that a delegate may have been accorded the privilege of speaking, intolerance of the views of a delegate seemed contrary to the wish of the mass—all this may be de-

MONTEREY ATTACKED BY GENERAL VILLA REAL

MEXICO CITY, July 14.—Monterey, capital of the state of Nuevo Leon, was attacked by General Ireneo Villa Real today, according to reports received by the war office from General M. Perez Trevino, chief of military operations in that state, and General Arnulfo Gomez, chief of operations in Tamaulipas.

General Pablo Gonzales, former candidate for the Mexican presidency, is said to have been responsible for the attack.

Generals Trochon, Gomez and Pafirio, governor of Nuevo Leon are taking "necessary steps" against Pablo Gonzales, according to a war office statement.

Bellof was expressed that General Villa Real had not attacked the city with any serious intention of capturing, but had sought to join forces with Pablo Gonzales.

Chile Calls Military Classes To The Colors

SANTIAGO, CHILE, July 14.—Chile has called to the colors the military classes of 1915 to 1919 inclusive, of the four northern provinces of the country. It is understood this action was taken in view of the international situation arising in connection with the Bolivian revolution.

About half of the 32 power houses

were closed by the electricians' strike, but the others were manned with non-union men, according to street car officials, who said that 140 cars were running on the principal lines this morning and that more would be added through the day.

Information received here indicates the call involves about 10,000 men. Among the units called to the colors are the bolivian reserves of 1915 and 1919, which cover the aviation, railway and telegraph services, and some reserve officers of all arms have also been summoned for duty.

Reds Push Back Poles

LONDON, July 15.—Russian Bolshevik forces have forced their way across the Vilya river in the province of Vilna on the north, and have driven the Poles out of the city of Kamenets-Podolsk, on the southern end of the Polish front, according to an official statement issued in Moscow yesterday and received here by wireless.

West of Melitopol, northeast of Minsk, the Soviet forces are approaching the positions held by the German armies during the Polish campaign of 1919, the statement says. In the regions of Paravani and Silesia, south of Minsk, the Bolshevik advance continues successfully, it is declared.

Fierce resistance on the part of the

Reds will tell you that women make all the trouble in life, but an old man will say that women make life with all the trouble.

Times on the entire front between the Dvina and Dnieper rivers is reported in the statement.

National Recruiting Tide Turns

WASHINGTON, D. C., July 15.—The tide of recruiting for the navy has turned officials at the navy department said today, an increase of enlistments over discharges being shown for the first time since the war. On August 29, the enlistment periods of the last of the "before the war" tars will expire, but many of these are re-enlisting.

NINE PLANKS IN THIRD PARTY'S PLATFORM

CHICAGO, July 15.—The platform system, organization of state and national service to public applicants for farms and farmers already on land and promotion of "farmers' benefit organizations which actually will help."

Advocates government economy in replacing "extrangeness that has run riot under the present administration," retention and recall for federal judges and equal suffrage for all.

Demands withdrawal of the United States from participation under the Versailles treaty in the reduction of conquered peoples to economic or political subjugation, recognition of the republic of Ireland and the new "Russian government". Abolition of secret treaties and withdrawal of the United States "from the dictatorship we exercise over the Philippines, Cuba, Porto Rico, Guam and Hawaii." This section also pledges support to "a League of free peoples."

Demands Democratic control of industries, laying down the "right of labor for an increasing share in the responsibilities and management of industry."

Call for public ownership of all public utilities and natural resources and immediate repeal of the British imperialist law.

Demands favorable laws for farmers, establishment of public market extension of federal farm loan

Heavy Damage In Trieste

ROME, July 15.—Two persons were killed and were wounded and damage amounting to 20,000,000 lire was done during the disorders at Trieste during which Fuso-Sbari hotels and business places were attacked by Italians, according to the People d'Italia.

Chimpanzee Born

In New York Zoo

NEW YORK, July 15.—Susette, formerly star chimpanzee actress, now an inmate of the Bronx Zoological Gardens, today is the fond mother of the first infant of the species ever born in the United States and the second born in captivity. After Susette, the proud father of the household, was induced late last night to cease his hysterical yelping in celebration of the event, physicians in charge reported today that both mother and child were resting peacefully. Susette was in a secluded cage with her offspring clasped tightly in her arms.

Susette has spent several years on the stage, where she was noted for such exhibitions as eating with a knife and fork, drinking from a bottle, and numerous other feats showing rare mimetic talent.

ACCIDENT PUT RESOLUTE OUT; BRITISH SHIP SEEMS WINNER

SANDY HOOK, N. J., July 15.—Victory apparently lay with the British in the first race of 1920 for the America's cup.

Pulling on the throat halyards on the American defender Resolute resulted in her being withdrawn from today's contest after beating Sir Thomas Lipton's challenger to the turning mark in a 30 mile race. Giving the American a wide berth, the Irish baronet's pride swept on towards the finish while the defender was taken in tow by her steam tender.

With the Shamrock showing no intention of herself withdrawing from the race because of her rival's misfortune, it looked as if Captain Burton's craft would be able to cross the line within the six hour time limit placed on the races.

SANDY HOOK, July 15.—Resolute led Shamrock across the starting line in the first America's cup race of 1920.

The Resolute crossed at 12:01:54 and Shamrock at 12:02:40 unofficial time.

From the shore it was apparent that the Shamrock had made a poor start, not crossing the line until after the handicap whistle had been blown at 12:02:40. The yachts crossed the line on the starboard path.

Shamrock was over the line at the starting signal and her skipper, Captain William P. Burton had to recover. Meanwhile Resolute slipped over in first place. Shamrock recovered about 16 seconds after Resolute and immediately stood after the American boat had 200 yards astern. According to yachtmens, Shamrock's start today was the worst ever made by a Tipton boat.

The official starting time given from the race committee's boat was: Resolute 12:00:40; Shamrock, 12:01:38. It also was announced officially that the time allowance would be six minutes and 40 seconds due to a change in measuring the Shamrock's sails.

At 1:03 p. m. with both yachts standing off shore on a starboard tack, Resolute was more than half a mile in the lead and slightly to windward. The wind breezed up again to six knots at this point.

Mrs. Burton, wife of the Shamrock's skipper, the first woman ever to sail on a cup yacht, had been designated to hold the time watch on the Shamrock. Whether she was on board to call the time of today's race, was not known when the yacht started.

A downpour of rain, which drenched both yachts, flattened out the sea so that it was as smooth as a mill pond.

The yachts apparently were making poor time.

Light lightning flashed in the sky and the torrential rain drove passengers from the decks of excursion boats to the cabin below. At 1 o'clock rain was falling with the intensity of a cloud burst and visibility at sea was limited to a few cable lengths, thus making it dangerous for the racers, should they be close together.

With this last downpour came a heavy squall of wind from the west, which caused the yachts to stagger in the sudden blow. Some yachtmens believed the race committee might call off the race.

Billy Butt In Times Weather Map

There was a lot of grumblin' and rumors ofistic action this morning among members of the Chamber of Commerce in charge of the plans for the day's celebration, all because of that slow point. But Yester-Tony was right on the job and after pacifyin' th' more rambly ones, got the rain out of th' way, chased away the clouds and presented the sun to shine. Here's for tomorrow!

KENTUCKY.—Partly cloudy tonight and Friday. Probably local thunder showers.

MISSOURI.—Fair tonight; cooler southwest portion; Friday fair.

The extremes in local temperatures today were: High, 82; low, 67.

LONDON, July 15.—An Exchange Telegraph dispatch from Berlin today quotes the newspaper Pravda, one of the Russian Bolshevik organs as follows: "Declaring that Soviet Russia would decline all proposals for peace with Poland and would not lay down her arms until a Bolshevik Poland was established in place of the present capitalist state."

WANT MOORE TO ACCEPT ACTIVE MANAGEMENT OF COX CAMPAIGN

COLUMBUS, O., July 15.—Pressure is being used by political friends of Governor Cox on E. H. Moore, the governor's pre-convention campaign manager, to have him accept the chairmanship of the Democratic national committee and assume active management of the national campaign.

Former Congressman George H. White of Marietta, returning from the San Francisco convention, where he worked with Mr. Moore, in the governor's behalf, breakfasted with Governor Cox this morning. Mr. White said he tried to impress upon the presidential nominee the necessity for having Mr. Moore to manage the campaign and urged him to use his influence in an attempt to dissuade Mr.

Moore from adhering to his desire to stand aside for some other person.

Mr. White will accompany Governor Cox to Washington Friday evening for the conference Sunday with President Wilson.

Governor Cox still refrained today

from commenting on the third party.

He said when informed that an Ohio man had been nominated for vice president by the third party.

Officers of the national women's

party began to arrive today for the conference at 2 o'clock tomorrow with Governor Cox in an effort to have the

governor use his influence to obtain

ratification of the suffrage amendment

to Tennessee to urge ratification.

Moore, according to advices received by Tennessee, Miss Alice Paul, chairman of the women's party, will head the delegation to call on the governor. She arrived today accompanied by Miss Sue White, national research chairman of the women's party and state chairman for Tennessee and Mrs. Stacy B. Jones of Seattle, Wash., assistant press chairman.

The governor stated today that he did not know yet what his answer to the women's party representatives will be, whether it will take the form of his message to the legislature of Louisiana in which he advised ratification, or whether he will agree to send a personal representative or delegation to Tennessee to urge ratification.

PLENTY OF ACTION AT CHAUTAUQUA

Do you believe in signs? The Redpath Chautauqua does.

Have you seen the banners waving in the streets, the swing dusters and window cards, the feature pictures in the bazaar? These are sure signs that Portmouth will be invaded from July 10 to 25 by an army—an army of entertainers. There will be action every

minute from the zero hour on the opening day until Joy Night on the final evening.

Mr. Anderson, of the Elk Club, is chairman of the local committee, and he is expecting Portmouth to come through as usual in the theater sale. He urges that all who appreciate high-class entertainment—and judging by

past experience, there are many in our city, secure season tickets at once, which are on sale with members of the Elks and various stores near the post office.

The Chautauqua tent will be pitched at the usual spot, on Union street school grounds.

POLICE HOLD MEN ALLEGED TO HAVE PUT KNIFE IN SLIDE AT TRACY PARK

Fred Morris, aged 18 years, of Gallipolis, East Portsmouth, whom the police have been seeking for several days in connection with the placing of a knife-blade in a slide board at the children's playgrounds in Tracy Park on July 4, which resulted in little Helen Nelson, 015 Tenth street, suffering a severe cut on the right leg when she slid down, surrendered to the police shortly after one o'clock today, when he walked into police headquarters.

Charles Snapp, aged 26 years, Camp

Sherman soldier, was also taken into custody at Chillicothe today and returned here as an accessory to the brutal crime, which is punishable by imprisonment in the penitentiary. The accused young men were locked up at the city jail pending their hearing in Municipal court on charges of malicious intent to disfigure and maim the Nelson girl.

After giving himself up, Morris is said to have admitted to Chief Joseph Distel that he placed the knife blade

in the board, hoping to induce Snapp, who was with him, to slide down and rip his army trousers. He denied any intention to injure the little girl and expressed sorrow over his thoughtless act.

The little girl, who is the daughter of Mr. and Mrs. Willard Nelson, 015 Tenth street, received a cut 9 inches long and 2 inches deep. The child is now able to be about after being confined to her home for several days because of the injury.

French Memoirs

The French surpass every nation. Indeed all the other nations of Europe put together in the amount and excellence of their memoirs. Whence comes this manifest superiority? The important collection relating to the history of France, commencing as early as the thirteenth century, forms a basis of civil history, more authentic, circumstantial and satisfactory to an intelligent inquirer, than is to be found among any other people. And the multitude of biographies, personal anecdotes and similar scattered notices, which have appeared in France during the two last centuries, throw a flood of light on the social habits and general civilization of the period in which they were written.—William H. Prescott.

Murder Trial Put Off

After parleying two days, the attorneys in the Tom Jones murder case in the circuit court at Greenup finally obtained continuance late Wednesday afternoon when Judge W. H. Hubbard, of Vancouver, put the trial over until July 23 in order to give the defense an opportunity to secure the attendance in court of an important witness.

The crime for which Jones is to be tried occurred in February, 1919, when he is alleged to have shot to death Joe Eggers following a dispute over a fence between their farms at White Oaks, 15 miles back of Greenup. On a former hearing the jury brought in a verdict finding the accused guilty as from Greenup Wednesday night.

LOCAL PASTOR TELLS ABOUT THE COLLEGE AT BEREAL, OHIO

Editor Times:

As I spent the time from June 22d to July 8th in Bereal, Ohio, in a school conducted by the Home Mission Board of the Methodist Episcopal church for rural pastors and since the pastor of Franklin Avenue Methodist Episcopal church in Portsmouth is a son of Prof. Martin of Baldwin-Wallace college located in Bereal, I thought some readers of the Times would welcome a short article relating to Bereal and the College.

Berea is 12 miles from Cleveland on the Big Four and Lake Shore Railroads and on the South Western traction line which furnishes hourly service between Cleveland and Bereal. Bereal has the advantages of a large industrial city without the inconveniences, thus making a most desirable place for homes.

Its large well kept lawns, tall, stately shade trees on every street and its splendid homes make Bereal one of the most beautiful and homelike towns in Ohio. The very atmosphere, as one walks beneath the shade trees, gives one the feeling of restfulness. The rush and din of the manufacturing town are absent.

The thirty or more acres of campus, kept like a lawn containing eight large stone buildings and several residences in connection with the quietness of the town gives it an atmosphere of culture and refinement. An ideal environment for study. The students have the opportunity of knowing the problems of their day, as they visit the city of Cleveland, and the opportunity to prepare themselves to help solve those problems as they study in the quiet college.

As no fraternities are permitted in the college, (a good rule), the school is democratic.

In the recently erected music hall, one of the finest organs in the country is installed. Prof. Rehmenmehl studied and traveled for several years until he had the last word on organs, then put the organ in according to his own conception.

The concert given by the professor to the school showed the beauty and power of the organ. The school considered that they were highly honored and splendidly entertained by the professor.

A high standard of Christian living is maintained at the college. No parents who are seeking Christian life and preparation for life's work for their children will make a mistake of sending them to Bereal to attend Baldwin-Wallace college.

C. A. HUGHES,
Pastor of the New Boston M. E. church.

Her Way.

I was teaching school and as I had the primary room on the lower floor was considerably annoyed by the boisterous way in which the high school pupils came downstairs. The teachers held a consultation and I was appointed to speak to the principal concerning the matter. As a result, stopped blue one day on the landing.

Just when I had finished my speech I lost my balance and went rolling down the steps. When I arose the principal smilingly said, "Is that the style you desire the students to use?"—Chicago Tribune.

Editorial: "Tiz"—A JOY TO SORE, TIRED FEET

Use "Tiz" for Aching, Burning, Puffed-up Feet and Cramps or Calluses.

Good-bye, sore feet, burning feet, swollen feet, tender feet, tired feet, cloudy eyes, calluses, blisters and raw spots. No more shoe tightness, no more blisters, with pain or leaving your face in agony. "Tiz" is magical, acts right off. "Tiz" draws out all the poisonions excretions which puff up the feet. Use "Tiz" and wear smaller shoes. Use "Tiz" and forget your foot misery. Ah! how comfortable your feet feel.

Get a box of "Tiz" now at any druggist or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed. Money refunded.

Sample moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather comes out easily and removes every particle of dirt, dust, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, shiny and easy to manage.

You can get Multiplied coconut oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

SAYS HE BELIEVES IT SAVED HIS LIFE

Contractor Declares Tanlac Has Restored His Health After He Had Almost Given Up Hope.

"I believe as firmly as I believe anything that if it hadn't been for Tanlac I wouldn't be alive today," said William F. Keyes, a contracting painter and decorator living at 812 Lake street, Toledo, Ohio, while telling of the remarkable benefits he has derived from the medicine.

"I was fast going down hill at the time I started taking Tanlac. In fact, I had just about reached my rosy end. Three years ago my stomach went back on me and other troubles set in and the misery I have suffered since then is something I certainly hope I will never have to go through again. I had indigestion so bad I had to live almost entirely on liquid diets and even this disagreed with me. Dizzy, fainting spells often came on me suddenly and several times I dropped right in my tracks and had to be carried home. My kidneys were all out of order and worried me continually and my back hurt so bad sometimes I could hardly move. Last year I got

bad off. I underwent a painful operation in an effort to get relief but that left me in a weaker condition than ever. I began to fail of sin weight and during the past six months I have been unable to attend to my business at all hardly. In fact, I was just about past going and all my friends and even myself had almost given up hope for my recovery."

"But here I am today a well, strong and healthy man and Tanlac is the cause of it all. It has done me more good than I ever thought was possible. Why, it has built me up to where I have actually gained sixteen pounds in weight and I feel as fine as I ever did in all my life. My appetite can't be beat and my stomach couldn't be better shape for I can eat anything else easily and digest it perfectly. My kidneys are in good condition and my back never hurts me at all. I don't know what it is to ever have one of those dizzy, fainting spells any more and I am attending to my business as good as I ever could. I feel ten years younger and I make no secret of what Tanlac has done for me for I believe the people ought to know about it."

Tanlac is sold in Portsmouth by the Fisher and Stroeh Pharmacy and the leading druggists in every town.

OBJECTS TO PHONOGRAPH BEING PLAYED AT NIGHT; FIGHT FOLLOWS

Wiley Cooper and Dan Marrs resided in the same house near the corner of Thirteenth and Union streets and Tuesday night they clashed in Municipal court. Cooper pleaded guilty to a charge of disorderly conduct and Judge Shadell ordered him to pay the costs. Marrs failed to appear for trial.

WORKMEN IN PUSH CARS MEET ON SINGLE TRACK; FIGHT FOLLOWS; ONE BADLY HURT

Sturgel Hall, aged 19 years, is at his boarding house, 1820 Robinson avenue, in a serious condition, and the police are looking for Richard Brannon, aged 25 years, on a charge of assault with intent to kill, the result of a dispute between the men, which occurred at the N. & W. terminals Wednesday afternoon, and which led to Brannon inflicting the injury, it is alleged. Both are employed by the N. & W.

The trouble arose when small push cars, in charge of the men, going in opposite directions on the same tracks, collided and a hot argument ensued as to which had the right-of-way. It resulted in Brannon calling Hall a vile name, it is claimed. This angered Hall, and as he started toward Brannon the latter hurled an 18-inch iron bolt which struck Hall squarely in the forehead and felled him. Other workmen who had Hall's rescue and finding him unconscious and bleeding profusely from a wound in his forehead, sent him home, where he was attended by Dr. J. N. Ellison. The injured man remained in a stupor over last night, and this morning his condition was reported a bit improved. It was at first thought that the man's skull had been fractured, but an examination disclosed this was not the case. He required six stitches to close the wound. The victim of the assault also complained of severe pains in his chest, due to a bad bruise he sustained probably in falling.

Brannon is married, and lives in School Land Hollow, above New Boston. Officers searched for him Wednesday night but were not successful in apprehending him until shortly before noon Thursday when Officer John H. Lewis captured him near New Boston and brought him to the city jail where he is held pending the outcome of the injury of his victim.

Want Finger Prints

Of New Born Babes

NEW YORK, July 15.—The bureau of missing persons of the police department was on record as favoring enactment of a law requiring physicians filing birth certificates to furnish finger prints of every new born child, thus furnishing scientific identification of every person from the cradle to the grave.

Such a record would be valuable, it was said, not only in pursuit of criminals, but in proper identification of persons killed in accidents without having identification papers, and in tracing victims of kidnappers. Citation was made of the recent death of a well-to-do woman, whose relatives did not hear of her death until after her unidentified body had been taken from the morgue.

TANENHAUS STORE TO BE OPENED HERE

It was authoritatively stated Wednesday that the Roger building, recently erected at 315 Chillicothe street, had been leased by The Tanenhaus System, of New York City, and will, as soon as extensive remodeling operations can be completed, be opened as one of the Tanenhaus System Stores, being known as Store Number Fifteen and handling outer-wearing apparel for women and misses.

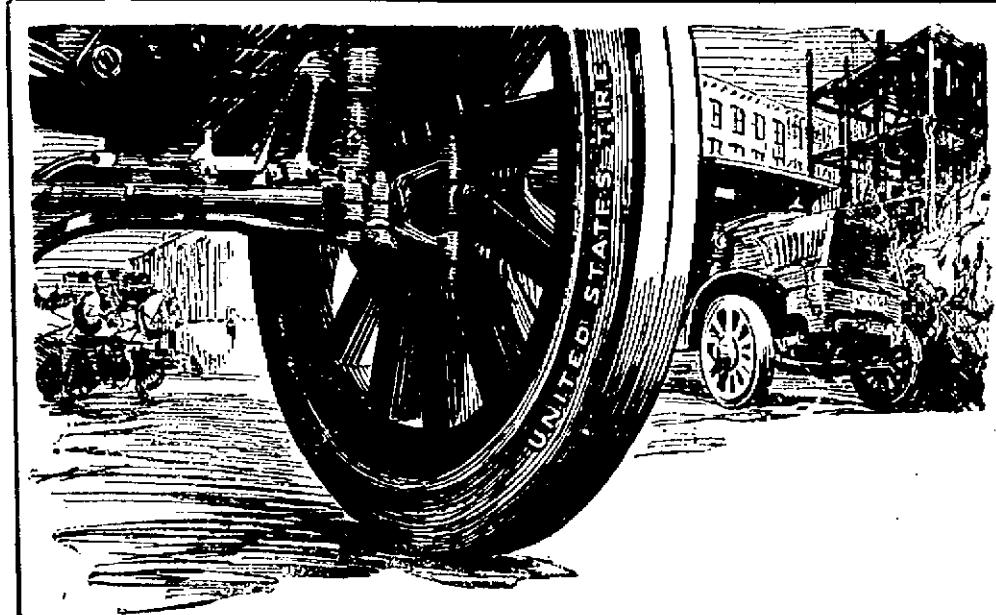

The improvements will consist of the installation of the very latest fixtures, while several changes are contemplated in the front. Col. A. Tanenhaus, head of the organization, was in the city and personally negotiated for the lease of the building, which is three stories high and which will give plenty of floor space to make a model display of the high-grade ready-to-

wear goods which will be handled.

Col. Tanenhaus stated that he was much impressed by the spirit of Portsmouth—that he was sure the city was destined to become one of the largest cities between Pittsburgh and Cincinnati and that his store would in every way keep step with the progressive spirit of the city.

The Tanenhaus System is operating fourteen stores in southern cities, and according to Col. Tanenhaus, every one has been a success. He says that the Portsmouth store will carry nothing but high-grade wearing apparel, all moderately priced. He is hopeful that the contemplated improvements will be completed by not later than August first, as he is very anxious to open the Portsmouth store.

The main Tanenhaus store is located at 184 Fifth avenue, New York City.

Give Your Motor Truck Driver a Tire He Can Depend On

THE man who tells you that motor truck drivers are not interested in the efficient and economical operation of their trucks has never been in a garage when the trucks were coming in from their day's hauls.

Tire splitting and base separation are not things that truck drivers thought up to annoy their employers.

Until the new U. S. Grainless Rubber Solid Truck Tire was created, no way had ever been found to prevent solid tires from splitting. Nor had anyone ever

been able to prevent base separation.

As representatives of the oldest and largest rubber company in the world it is our privilege to introduce this new tire to the owners and drivers of this city.

The first solid truck tire ever made that will neither split nor separate from its base.

Give your driver a tire that he can depend on—that he doesn't have to nurse and be thinking of all the time—and watch how much more efficiently your trucks operate.

And how your tire costs go down.

In purchasing a new truck consult us about the type of tires to specify.

Mine Tipple Attacked

WILLIAMSON, W. Va., July 15.—Persons concealed in the dense undergrowth of the mountains on the West Virginia side of the Ohio river, fire rains north of here, today attacked the tipple of the Borderland Coal Company, on the Kentucky side. The fire was returned by men on guard at the mine, which is in the Mingo strike district. Reports received today said there had been no casualties.

A posse was quickly organized by Mingo county authorities and hurried to the scene of the fighting. Bloodhounds were taken, should it become necessary to trail the attacking party through the woods.

Borderland was the scene of a similar attack last week, shot having been fired over the little village on the West Virginia side into the coal tipple high up on the Kentucky mountains.

Other parts of the Mingo county field, where miners are striking to enforce recognition of the union, were said by the authorities to be quiet.

IRONTON HOPES FOR BRIDGE FROM FORD

Irondale is still hoping for a bridge across the Ohio, judging from the following from the Irondale:

The purchase of the D. T. & L. line by the Fords has aroused much spe-

cial interest in the possibilities for local development attendant upon the conclusion of the deal.

There are many and diverse opinions but the consensus of expression seems to be that the deal will eventually mean the bridging of the Ohio River in this section and logically at Irondale, in order to make the connecting link in transportation facilities from the Harlan county, Ky., coal fields purchased by the Ford interests. It is also deemed very probable that there will be a general improvement of the D. T. & L. system and that Irondale may become a distributing point for the Ford products for this section of the country. At any rate the reflections of the citizens are being closely watched and everybody is hoping that the anticipations will be fully realized.

The following composition on "The Angelus" was written by a New York schoolboy: "The picture was painted by Maliby. It contains a man and a woman, a pitchfork, wheelbarrow and a church steeple. The man and the woman are very poor and they have been digging potatoes because they need them to live on. The potatoes grow quite small. Just at sunset they bear a bell ring; it is the Angelus. It means they must pray. So they bow their heads and pray for bigger potatoes."—Boston Transcript.

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Dolly—Please print in your paper answers to the following: (1) Who are the names of the members of the president's cabinet in order? (2) What was the last amendment to the constitution? Are we still in a state of war with Germany? If so, why? Name some of the leading national topics of the day. A READER

The present cabinet officers are: Secretary of state, Bainbridge Colby; Secretary of the treasury, David F. Houston; secretary of war, Newton D. Baker; attorney general, A. Mitchell Palmer; postmaster general, Albert S. Burleson; secretary of the navy, Josephine Daniels; secretary of the interior, John Barlow Payne; secretary of commerce, Joshua W. Alexander; secretary of labor, William B. Wilson.

The last, or nineteenth amendment to the constitution of the United States is the Susan B. Anthony amendment, commonly known as the woman's suffrage amendment. Section 1.—The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of sex. Section 2.—Congress shall have power by appropriate legislation to enforce the provisions of this article. When ratified by 36 states—three-fourths of all the proposed amendments will become law, operative in all states of the United States. If we get one more state we can help elect a president this fall. The United States is not at war with Germany or any other nation. If you will read the front page of The Times each day you will know all about the leading topics of the day. Some of them are the presidential candidates, the League of Nations, the German situation, the Irish question, the high cost of living, including the sugar shortage, the coal shortage and car shortage strikes here and there and everywhere. The merits of the Democratic and Republican platforms, woman's suffrage and the wet and dry question are also important and widely discussed topics.

Dear Dolly—I am going on vacation in a week or so and want to go to the hair dresser's while I am in Cincinnati and wish to know just what to do. Will it be necessary to take kerosene to put on while my hair is being washed or dressed or should just "keep" my traveling dress on. Also like to know if it is proper to shake hands when you are introduced to a young man.

VACATION BOUND It isn't necessary to take anything with you when you go to the hair dresser. They provide everything needed. Usually they just use a towel or two and sometimes a sort of an oxygen. We have several hair dressers here in Portsmouth. It is proper to shake hands when introduced, but not necessary.

WHEELERSBURG—Dear Dolly—I know a man I think I love him but I want you to tell me what you think. When I am with him I am satisfied and when I am not I feel so lonesome I am tired of living. I can't sleep for thinking of him. He is the most perfect man I ever saw. What do you think?

GREENLY—When a girl gets to thinking the way you do, Greenly, there's something wrong with her. It may be the hot weather and it may be that you need a little vacation. At any rate you need something. Suppose you go to a doctor and get some love powders. If you've got a "perfect man" out there bring him in as I'd like to get a peek at him.

Dear Miss Wise—I have just recently got acquainted with a lady 16 years of age. I love her very much. But her father is not willing for her to have company. Now, Dolly, I have come to you for advice as to what in do to win his affections. I am a young man.

"GRATIS PUELLA." I have this girl's name and address.

Dear Miss Dolly—I want your opinion on some things as I don't know very much. I was invited to a date a few nights ago and they had plenty musicians but no "caller." He started to the dance and stopped to see his girl, so of course never arrived at the dance at all. How do you suppose one can dance without a "caller"? And do you think it right for a man to slip off to a dance and not say a word to his wife about going, then ask some of the crowd to tell his wife he never flirted with the girls at all. And don't you think the man should always go to a place like that. Also should they not get partners on floor before the dance begins? What would you think of a man that tries to call and never speaks loud enough for the ones on the off side to hear him?

WANT TO KNOW

I should think you would know the dance well enough to go through it without a "caller." If not, surely some of the men present could tell when to swing, their partners, and swaying around. You can't blame a man for slipping off to a country dance. There's something alluring about these old-fashioned dances that the average country lad and lassie just can't resist. Some of them will go miles to attend one. Perhaps he didn't want to arouse your suspicions. The next time there is a dance in the neighborhood why don't you get ready and go with him. Why not take up a collection and get the weak-voiced caller a megaphone.

Dear Dolly Wise—I am coming to you for advice. I have an account due me for almost three years. Can I garnish on that debt that has been due so long or will they accept a garnish on that debt?

TIMES BENDER

You can garnish the wages of the person who owes you the debt. If I were you I would charge them interest too, as there is no excuse for a person owing money for three years.

Mr. Arthur Sharp Tells How Cuticura Healed Pimples

"My trouble began with sort of an aching and burning sensation which bothered me. Then pimples began coming out on my face. Soon my face was a mass of itching, burning pimples, which disgusted me greatly, and the discomfort was terrible. I scrubbed the pimples and irritated them more, and suffered greatly.

"I sent a free sample of the cream. Preparations and was pleased with the result. I bought more, and after using one cake of Soap and less than a box of Cuticura I was healed."

Signed, Arthur Sharp, Box 124, Salineville, Ohio.

Once clear, keep your skin clear by using Cuticura Soap and Ointment for everyday toilet purposes and Cuticura Talcum to powder and perfume. Nothing better.

A merry time was had Wednesday afternoon when twenty-five little friends of Miss Ruth Hopkins responded to invitations to celebrate her eleventh birthday anniversary at her home, 1511 Fifteenth street. The hours passed merrily from three to live with many pleasures, including dancing, a peanut hunt, and a wool contest. Little Miss Beatrice Conner used her eyes to the best advantage, finding the most peanuts, and was awarded the petticoat boy of candy. In making the most words out of the word "birthday," Janet Miller, was the winner, before awarded a dainty pair of stockings.

The girls who presented a pretty picture in their daintily-colored summer frocks, when they were served with the refreshments of pink and white ice cream and cake, enjoyed the prettily decorated birthday cake with eleven pink candles. The dessert was made festive for the occasion with pink and white roses and other summer flowers for the happy gathering, the favors being dainty paper cups. The following girls wished their hostess "many happy birthdays": Janet Miller, Martha Postlewaite, Dorothy Weston, Virginia Ware, Kathleen Thomas, Linda Warner, Lorraine Brown, Mary Elizabeth Hall, Marcelline Rardin, Margaret Kelsay, Marcelline Bentz, Mary Marcelline Baker, Jean Cleon, Pauline Lee, Rosalie Elizabeth, Edith Martin, Gould, Ruth York, Barbara Conroy, Betty Park, Jacqueline Stetler, Edna Proser, Betty and Helen Bentz, consisting of the hostess, of Xenia, and Miss Hopkins.

PRE-WAR METHODS OF DEALING IN WHEAT RESUMED IN CHICAGO

CHICAGO, July 15.—Fager, watching by the grain trade throughout the world attended the resumption today of pre-war methods of dealing in wheat. On the Chicago board of trade, where the chief interest was centered, an entire absence of formality characterized the event.

For the first time since August 23, 1917, when the United States government assumed control over business in wheat, operations were permitted today that went beyond more limited quantities on hand to mouth basis.

Indeed, the buying and selling of wheat was broadened out so as to include future as well as immediate delivery with no restriction as to amount except as guided by the regulating powers which the members of the board of trade had voted to the officials of the institution. To facilitate the new dealings, temporary quarters on the exchange floor were provided in the trading pit which in anti-bellum days were devoted to oats.

The plan of a modest start in the former oats pit was adopted on the assumption that it would take considerable time for the wheat market to adjust itself to an open supply and demand basis. In this connection, it

F. Gates, president of the board of trade, said speculative trading would be encouraged only to the extent necessary to furnish a stabilizing influence. He added that not until transportation conditions became more normal, could the market in future deliverables be expected to afford the full measure of protection for handlers and dealers to which they had been accustomed.

"Today is significant and important," said President Gates, "in that it marks the re-entry of the law of supply and demand into the trading pit where buyers and sellers in the open market, absolutely responsive to actual conditions affecting values, again operate their marketing machinery, which Herbert Hoover designated the most economical in the world."

Prior to today, the last recorded transactions here in future delivery of wheat were for September, 1917, at \$2.11 1-2 a bushel. Since that time, wheat for immediate delivery has sold in Chicago as high as \$3.05 and as low as \$2.18, the latter being the government's initial guaranteed price which was subsequently advanced to \$2.26. Yesterday, a car of new wheat, grading No. 4, brought \$2.87 a bushel.

COURT HOUSE

Train Riders Arrested

Paul Chapman, white, and J. L. McLean, colored, were the two men given by two men taken into custody and brought to the county jail Thursday by railroad detectives on charges of train riding.

Judge Stephenson Coming

Judge Will P. Stephenson, of West Union, is expected to come early next week to hear some matters in the local Conason Pleas court. While here the Adams county jurist will probably hand down a ruling on a motion for a new trial in the case of The Nicola Building company against the City of Portsmouth, which, on the main issue, was won by the city, according to Judge Stephenson's decision recently.

Continued For Investigation

Judge Thomas Wednesday heard evidence in support of the petition in the divorce suit of Victoria Lattie against Thomas La Rue, and then continued the case for further investigation. The couple, who are colored, were married March 11, 1918, and she alleged neglect and cruelty, declaring that he beat her with a leather strap and his fist, refused to support her, and squandered his money for drink and gambling. She also asked for her former name of Wright. H. A. Taylor, attorney for plaintiff.

Nonsupport Alleged

Delbert Shugart, Sunnale street shoemaker, was arrested and lodged in the county jail Thursday on a warrant issued from the probate court charging him with non-support of his three-year-old son. The complaint was made by the wife of the accused through Probation Officer Harry Ball.

Youth Sent To Parents

Arch Brown, aged 17 years, one of two youths that ran away from their parents at Bayview, W. Va., recently and picked up by local officers, was sent to his parents at Berlin Cross Roads Thursday by Sheriff Birkey.

The other lad, Luther Mayberry, aged 17 years, was released from custody Thursday when through the efforts of Deputy Harry Dunham the youth was given employment by a local baker after officials contributed to a fund to buy him a new outfit of clothing.

Delinquency Alleged

Ruby Montgomery, McDowell man, swore to a warrant in Juvenile court Thursday for the arrest of James Ross, aged 17 years, McDowell youth, for alleged delinquency.

Montgomery alleges in his complaint that the lad misleads his small children by throwing rocks and threatening to strike them with clubs.

NEW YORK STOCKS

NEW YORK, July 15—Heaviness of oils, equipments and transportation at the outset of today's stock market session foreshadowed a continuance of yesterday's professional selling movement. Houston oil lost almost 2 points and American car 1 point, while some of the junior rails denoted pressure. Prospects of higher money rates as a result of extensive treasury withdrawals contributed to the market's dull and irregular opening.

Trading lapsed after the first half hour business failing to the meager totals which preceded last week's tally. Greater interest was manifested in the Spa conference announcement that the Germans had yielded to latest terms of the allies imparting moderate firmness to British ex-

change. The market became more active towards noon but almost entirely at the expense of values. Shipments and oils were under especial pressure with motor specifications and the further reaction among rails entered several of the high grade issues, including Atlantic Coast line. Call money was unchanged at 8 percent.

On little more than nominal dealing today's stock market was subjected to persistent short selling, speculators losing 2 to 10 points. The rates approximated 350,000 shares.

The closing was weak.

CHICAGO GRAIN AND PROVISIONS CHICAGO

CHICAGO, July 15—Trading interest on the exchange today centered on the resumption of future delivery dealing in wheat. Sellers of wheat were in a majority and first prices 272 to 275, were somewhat under what had generally been looked for. Only a fair amount of business developed, however, and slight attention was quickly transferred to corn and oats. Opening prices for corn, which ranged from 2½ lower to 10 advance, including September at 1,031 to 1,034 and December at 1,072 to 1,074, were followed by rallies to slightly above yesterday's finish.

The close as weak at 2,70 December, and 2,73 March.

Oats were governed by the action of corn. After opening 5¢ off to a slight advance, including September at 77½ to 77¾, the market steadied at a slight gain.

Lower quotations on hogs weakened provisions. Most of the trade was in lard.

Prices closed heavy, 2½ to 5¢ net lower, with September 1,491 to 1,491½ and December 1,575 to 1,575.

TOLEDO GRAIN TOLEDO, O., July 15—Wheat cash 230. Corn cash 1,60. Oats cash 1,40.

BUT AMERICA HATH NOT

AKING up a thought, expressed in these columns a few days ago, the Cincinnati Enquirer, finds it altogether pleasing, that a Canadian lawyer should express to the American bar association, the cordial friendship and good will of Canada for the United States.

From thence it goes on to lament that it can not be said that the same feeling exists towards us on the part of the neighbor immediately to the south, and in connection therewith quotes these words of wisdom: "He that hath friends must show himself friendly".

That Mexico is suspicious and resentful of this nation is more largely the fault of ourselves than of her. As the great and powerful nation we have shown no disposition to be either considerate or fair in our attitude toward her. Selfish interests, petty politicians and foolish newspapers have exploited her, sought to foment quarrel with her and mocked and derided her, while the people in general have exhibited a contemptuous disregard for the sensibilities of her inhabitants. Rude treatment at the hands of Americans is the common experience of Mexicans and coarse and offensive designation of them is the universal practice.

In material ways, the Mexicans may not have fared so far as Americans, but neither in manners and personal conduct have they degenerated into such coarseness. Even the meanest of the so called peons are respectful and polite; making no exception as to individuals.

When this nation and its people come to recognize that Mexico and her people are neighbors, a nation and a race, rather proud and sensitive, that to be worthy of our bigness and our strength we should show them we are well meaning, even to generous friendship, there will be no question Mexico will reciprocate our friendship just as genuinely as does Canada and we dare say rather more unselfishly.

Henry Ford has purchased the Detroit, Toledo and Ironton railroad, and thereof Ironton has great visions. It may so that in this instance dreams come true. It is not unlikely that the purchaser had some special plans in the development of his mammoth automobile plants, in connection with the ownership of the road and what more reasonable than Ironton should become the seat of a new branch and made the distributing point of the famous tin lizzies for Southern Ohio, Kentucky and West Virginia. That would be the making of any town in itself. Otherwise, things are sort o' looking up in Ironton and before another full year rolls around she will be drawn closer to Portsmouth by a permanent highway.

In the stress of convention dallying census reports have received rather slight attention for a fortnight. They all, however, show one trend, the star of empire still moving in its course westward, with southern towns, as a rule, making substantial gains, while those in such strong industrial eastern states as Pennsylvania and for in all Southern Ohio and far back in Kentucky. The census bureau has taken to giving out the population of counties and may be expected to make some announcement on states before the summer has waned.

Thomas Morris, of Broken Bow, Nebraska, has just died at the age of 127. Unfortunately additing to his death brought him to an early and untimely death. All his life long he had used whiskey regularly and when prohibited put it out of his reach he sickened and sank gradually to the end.

To be sure England loves us more than ever. That's the reason why she refuses Kentucky's request to return to her the state flag she captured at the battle of Raisin river, in the war of 1812. She wishes to retain it as momento of her warm affection.

If you do not take the Sunday Times you are missing a good thing. It finds favor as far north as Wellston and is eagerly sought for in Wellston, Adams county and far back in Kentucky. The merchant who wants tributary trade should use it.

The world quickly drifts back into its old ways. There has just been a revolution in Bolivia and the government was overthrown, as usual.

Report out yesterday there was only sugar enough on hand to run the town a few days. And a wholesale dealer told us there was more sugar hoarded than the warehouses ever held at one time.

Tuesday the Ohio was standing exactly at 13 feet. Is the number lucky or unlucky?

BILLY WHISKERS

by FRANCES TREGO MONTGOMERY

Stubb's rolls and laughter at Billy's joke were cut short by hearing a great clatter of horses' hoofs on the hard road behind them.

"Hurry and hide, Billy. It must be a party of Mexicans racing on their way home from the bullfight," he harked.

Stubby was right. They were Mexican cowboys out on a lark. When they saw Billy's head sticking above the bushes, one said in broken Spanish "Now for some fun!" at the same time unfastening his lasso from the pommel on his saddle where it always hung and with twirling tongue, uttered this cry, "Charrarrah!" He swung the lasso three times around his head and as he did so the loop widened and lengthened until a ringing sound it descended, encircling Billy's neck and the next second, he

was jerked over the bush he was hiding behind and dragged at a fast run after the cowboy who was spurring his pony to catch up with those who were ahead.

"Well Carlos, what have you been doing?" he said.

"I got a dandy little goat. Now you fellows see what you can do and when we get back to the ranch we will raffle off what we catch or cook them for supper."

"Good for you, Carlos. That will do. There I see something now I'm going to lasso," meaning Stubby who was following after Billy as fast as he could for he would have followed fully into the jaws of death, if need be.

Poor Stubby was very much surprised to feel a rope tightened around his neck and the next minute felt himself lifted from the ground to the saddle before the cowboy, where he was held as they galloped on in their mad race toward the ranch where the cowboys lived.

It is astonishing what some cowboys can do with a lasso and how expert they may become in its use.

Presently one of the boys spied a big turkey-buzzard sitting on top of a cactus plant and with a whoop like an Indian he was after it.

Before Mr. Blizzard had time to spread his wings and fly, he felt something hot twist around his neck and the last thing he heard in this world was a merry laugh go up from the cowboys at the idea of lassoing instead of shooting birds.

The cowboy was going to throw his buzzard away, but the others told him to bring it along, as everyone was to show, when he got back what he had caught with his lasso.

Soon a terrible squealing was heard just ahead of where one of the cowboys had ridden, and when the others caught up to him they found he had succeeded in lassoing a brown and saucy-colored pig.

"Good for you, Jake. Now we will have some roast pork and good chops for supper and we will throw the bones to the turkey-buzzard."

They did not know then that the big buzzard's neck was broken.

(What happened to Billy and Stubby at the ranch? You'll learn tomorrow.)

WHO'S WHO
In The Days News

PREMIER MEIGHEN

Arthur Meighen, Canada's new prime minister, is forty-four years old. He is, like his predecessor, affiliated with the Conservative branch of the Unionist party. Mr. Meighen has represented a Manitoba constituency in the Dominion parliament since 1908. He is the first man from the Canadian west to attain the rank of premier.

The resignation of Sir Robert Borden has brought no crisis. It was merely entailed a change of Unionist leadership. Premier Meighen will continue the policies of his predecessor. Neither the official opposition of the Liberal nor the unofficial opposition of the National Progressives, or Farmers' Group, gained in strength by the change. The Unionist party, which still appeals to Canadian loyalty as the only which "won the war," is as strong as ever, and Mr. Meighen's leadership promises to be of long duration.

Although Arthur Meighen is regarded as a young man his twelve years of active political life have been eventful. In 1913 he was appointed solicitor general of Canada, which position he held till 1915, when he was sworn in as a member of the privy council. He became secretary of state in August, 1917, and secretary of the interior in October of the same year. It was during this eventful year that the Unionist party was formed by the coalition of the Conservatives and Liberal Liberals, and Mr. Meighen took a prominent part in the enabling negotiations and in the compulsory military service debate which immediately followed. He is a man of energy and forcefulness, and his leadership will be especially to the large majority of Canadians.

John Flake, Linguist.

How many college undergraduates today can rival the linguistic attainments of John Flake when he was a student at Harvard? John Spencer Clark, in his life of Flake, quotes the following passage from a letter that Flake wrote to Miss Abbie Morgan Brooke, whom he afterwards married: "I can't talk in any language but my own; but I read in German, French, Spanish, Italian, Portuguese, Latin, Greek and Anglo-Saxon. Then, with hard study, I can decipher sentences, by sentence Dutch, Danish, Swedish, Hebrew, Chaldee and Sacerdite; and there are some few I have dipped into without doing much, either because they have little literature or because I have no time for them—Zenit, Gothic, Wallachian and Provincial, Persian and Arabic I long to know, but I despite of ever having the time to learn them; there is so much to be done in other things. Before long anatomy, physiology and kindred sciences will engross me, and I am afraid I shall have to bid a last farewell to philology."—Youth's Companion.

It took just ten minutes from that time to settle our business and to arrange for what I considered a munificent salary to be paid to one Lindsey every Saturday p.m. for her work as staff artist of The Evening Leader. When I realized what had taken place I nearly reverted to the mid-Victorian trick of "swanning," so excited and happy was I. And you believe it, that wonderful editor person was not the least put out when I told him I was sailing for Europe in less than three weeks—not he! He assured me that he would take my sketches of mine that I made, over there—if I cared to send them back to him, which I could do, and in a bunch. Also that the place would be open for me when I came back from my trip. It was really all too much like a tale from "The Arabian Nights."

I was so carried away that I very nearly told Mr. Dean this, and do you know he had such a kindly twinkle in his eyes that I do not think that, in dignity nor our position would have been endangered in the least by so doing. Editors are awfully human, I think!

They are under-estimated to many ways—and by many people.

"Come upstairs and let me wash your hands," said Winnie's mother. "I don't want to go up," wailed Winnie again. "Let her wash them down here," called grandma. "she can do it just as well." It Sure Does

"The ending of my story has been completely spoiled by careless proofreading," complained the angry author.

"So?" replied the publisher, smirking.

"Yes, exactly so," rejoined the author. "Here at the conclusion where the judge looks down at the detective and asks, 'Are you Pendleton King?' what does the plater make him say?"

"Listen; 'The famous detective, snatching off his beard, replied, 'I am.'"

"That certainly leaves the reader in the dark," remarked the publisher.

What It Was

"Rather absent-minded, isn't he?"

"Extremely so." Why, the other night when he got home he knew there was something he wanted to do, but he couldn't remember what it was until he had sat up over an hour trying to think."

"And did he finally remember it?"

"Yes—he discovered that he wanted to go to bed early."

PARLEY CHRISTENSEN AND MAX HAYES HEAD NEW THIRD PARTY

GROUP OF 48ERS BOLTS NEW PARTY MOVEMENT

"Farmer-Labor" Name Of Party

CHICAGO, July 15.—The farmer-labor party, born of a fusion of numerous political groups, today has a platform and has its new candidates in the field for the coming election. Its work was completed at 4 o'clock this morning when its convention, after an all-day and night session chose Parley Parker Christensen, Salt Lake City attorney and Max S. Hayes, Cleveland labor leader, as its presidential and vice presidential nominees, respectively.

But the strength of the new movement remains to be seen. The first test came today when a group of Mississippi delegates, formerly allied with the committee of 48, met and considered placing their own ticket in the field under the 48 banner.

MONTEREY ATTACKED BY GENERAL VILLAREAL

MEXICO CITY, July 14.—Monterey, capital of the state of Nuevo Leon, was attacked by General Irenio Villareal today, according to reports received by the war office from General M. Perez Trevino, chief of military operations in that state, and General Arnulf Gomez, chief of operations in Tamaulipas.

General Pablo Gonzales former candidate for the Mexican presidency, is said to have been responsible for the attack.

Gentiles Trevino, Gomez and Perito, governor of Nuevo Leon are taking "measures" against General Gonzales, according to a war office statement.

It was expressed that General Villareal had not attacked the city with any serious intention of capturing it, but sought to join forces with Pablo Gonzales.

Chile Calls Militia

Glasses To The Colors

SANTIAGO, CHILE, July 14.—Chile has called to the colors the military classes of 1915 to 1919 inclusive, of the four northern provinces of the country. It is understood this action was taken in view of the international situation arising in connection with the Bolivian revolution.

Information received here indicates the call involves about 10,000 men. Among the units called to the colors are the brigade reserves of 1915 and 1919, which cover the aviation, railway and telegraph services, and some reserve officers of all arms have also been summoned for duty.

PRE-WAR METHODS OF DEALING IN WHEAT RESUMED IN CHICAGO

CHICAGO, July 15.—Eager watching by the grain trade throughout the world attended the resumption today of pre-war methods of dealing in wheat. On the Chicago board of trade, where the chief interest was centered, an entire absence of formalities characterized the event.

For the first time since August 25, 1917, when the United States government assumed control over business in wheat, operations were permitted to day that went beyond mere limited quantities on a hand-to-mouth basis. Instead, the buying and selling of wheat was broadened out so as to include future as well as immediate delivery with no restriction as to amount except as guided by the regulating powers which the members of the board of trade had voted to the effect.

To facilitate the new dealings, temporary quarters on the exchange floor were provided in the trading pit which in ante-bellum days were devoted to oats.

The plan of a modest start in the former oats pit was adopted on the assumption that it would take considerable time for the wheat market to adjust itself to an open supply and demand basis. In this connection, it

50 MEN RAID THE DUBLIN POSTOFFICE

DUBLIN, July 15.—Fifty men raided the general postoffice here this morning and carried off all letters directed to Dublin castle, the vice regal lodge, the chief secretary and under-secretary of the Irish administration.

Judge Wanamaker Outlines His Platform

COLUMBUS, O., July 15.—Judge R. M. Wanamaker of the Ohio supreme court announced today the planks which he said constitute his platform for the Republican nomination for United States senator. He said he would have "no bosses, no money for nomination," and "no managers, hired misleaders or paid propagandists."

It was expressed that General Villareal had not attacked the city with any serious intention of capturing it, but sought to join forces with Pablo Gonzales.

Not all was harmony in the fusion convention during the hours the platform and candidates were under discussion. Heated debate developed also over the choice of a name for the new non-political group. The forty-eighers carried their unsuccessful committee fight against the socialist tactics of the radical laborites to the floor. Pursuing the same tactics they used throughout the platform attempts, they attempted to force their stances across through the use of Senator La Follette's name.

An embryo stampede and a 45 minute demonstration for the Wisconsin senator resulted from the injection of La Follette, but the well laid plans were foiled by labor leaders who blessed him.

Germans Accept The Allied Terms

SPA, BELGIUM July 15.—(By the Associated Press)—The Germans have agreed to the allied demand for delivery of two million tons of coal monthly with three new conditions, it is announced.

The German acceptance was en-

closed in a note which was laid before the allied premiers this noon by Premier Lloyd George. The conditions were these:

FIRST.—The German govern-

ment to have the distribution of

the Silesian coal or be allotted

1,500,000 tons monthly for north-

ern Germany instead of the pres-

ent allotment of 1,200,000 tons.

SECOND.—A mixed commission

to be sent to Essen to examine

foot and housing conditions.

THIRD.—The allies are asked

to advance money or provide credit for importing additional food for the entire German population.

The allied ministers up to shortly after noon had not yet announced whether the conditions were accept-

able.

READY FOR FLIGHT TO ALASKA AND RETURN

MINEOLA, N. Y., July 15.—Four trim-looking airplanes were lined up on Mitchel Field here today waiting for the signal which was to start them on their 9,000 mile flight to Nome, Alaska, and return. The expedition, organized for the purpose of establishing an aerial route to the northwest corner of the American continent for possible military use, and conducting an aerial survey of the territory traversed, will take approximately 45 days.

Each plane will carry an army pilot and a mechanical observer. Sixteen stops have been planned, the distances between stations ranging from 200 to 350 miles. From Mitchel Field the planes will fly to Erie, Pa., and thence to Grand Rapids, Mich. The remainder of the route lies along the northern border of the United States to Saskatchewan, Canada, and then northward to Alaska. Army planes for the purpose of obtaining a pictorial record of the trip.

Fear Columbus Car Strike

COLUMBUS, O., July 15.—With 100 men of the Columbus Rail-light company and the municipal light plant on strike since midnight last night, interest centered today on the results of the committee's demands for 50 per cent wage increase to the rail-light company with today it would be difficult for the company to reply. Union leaders assert that the company has as yet taken no action.

City council recently tabled wage demands of the striking light plant workers submitted June 25 while leaders of the rail-light strikers state that company refused them a hearing on their demands for higher wages and better working conditions.

Should the platform men strike the street car system of the city probably would be completely tied up.

MARION SEEMS TO BE UNANIMOUS FOR HARDING

Citizens mapped on the front porch at Marion and (below) Senator and Mrs. Harding and the senator's father, Dr. George T. Harding, snipped a few days ago in Marion.

Senator Harding's neighbors in Marion, Ohio, are still calling on him in large numbers to congratulate him and offer their best wishes for his success. The town seems to be unanimous for him for president. The large photograph above gives an idea as to how the townsfolk gather on the Harding porch each evening to pass a word with the famous man who has been nominated by a great party for the highest office in the world.

WHOLESALEERS' LEAGUE

REDS GET NEW PITCHER

George Lowe, one of the finest looking pitchers yet shipped to the Cincinnati club, has reported for duty, coming from the Springfield (Mass.) club of the Eastern League. The newest Red is six feet two, weighs 180 pounds, is 25 years old, and has pitched ball, amateur and professional, ever since he was old enough to distinguish the umpire from third base. His right-hand shots were good enough to win 14 games and lose 12 last summer with a rather feeble club behind him. This was much resembled the great Ruhebach when "Big Eli" first came out, and curiously enough, he is a close friend of the former Cub.

Arrangements have been practically completed to send Pitcher Lowe to Shreveport and Baton Rouge to Evansville, where Heine Groh's brother is manager.

It remained for the Standard Supply company who occupied the cellar in the league to land the first defeat of the season to the league leaders the Portsmouth Hat company, these two teams playing 3 to 2 game last night the game having been scheduled for this evening but moved up a day on account of the dam celebration. The game was featured by the hard hitting of the whiners, no less than seven two base hits going over the flood wall. The Standards found Ruhebach's offerings to their liking last night and hit the sphere hard when they connected which was quite often.

The Hat Men did not have their usual pep two regulars, Derr and Brandt being out of the lineup. Chabot was new in the box for Standards but he twisted a good game and he was given good support. The Hat Men had men on bases in position to score in several innings. Such was the case in the first when with bases full the next man struck out. It was by far the worst game played by the Hat Men this season. By winning, Standard Supply comes out of the cellar. Friday night Gilberts play Hobbs Hardware.

BUT AMERICA HATH NOT

AKING up a thought expressed in these columns a few days ago, the Cincinnati Enquirer, finds it altogether pleasing, that a Canadian lawyer should express to the American bar association, the cordial friendship and good will of Canada for the United States:

From thence it goes on to lament that it can not be said that the same feeling exists towards us on the part of the neighbor immediately to the south, and in connection therewith quotes these words of wisdom: "He that hath friends must show himself friendly."

That Mexico is suspicious and resentful of this nation is more largely the fault of ourselves than of her. As the great and powerful nation we have shown no disposition to be either considerate or fair in our attitude toward her. Selfish interests, petty politicians and foolish newspapers have exploited her, sought to foment quarrel with her and mocked and derided her, while the people in general have exhibited a contemptuous disregard for the sensibilities of her inhabitants. Rude treatment at the hands of Americans is the common experience of Mexicans and coarse and offensive designation of them is the universal practice.

In material ways the Mexicans may not have fared so far as Americans, but neither in manners and personal conduct have they degenerated into such coarseness. Even the meanest of the so called puns are respectful and polite, making no exception as to individuals.

When this nation and its people come to recognize that Mexico and her people are neighbors a nation and a race, rather proud and sensitive, that to be worthy of our largess and our strength we should show them we are well meaning, even to generous friendship, there will be no question Mexico will recompense our friendship just as genuinely as does Canada and we dare say rather more unselfishly."

Henry Ford has purchased the Detroit, Toledo and Ironton railroad, and theretofore Ironton has great visions. It may so that in this instance dreams come true. It is not unlikely that the purchaser had some special plans in the development of his mammoth automobile plants, in connection with the ownership of the road and what more reasonable than that Ironton should become the seat of a new branch and make the distributing point of the famous tin buzzards for Southern Ohio, Kentucky and West Virginia. That would be the making of any town in itself. Otherwise, things are sort o' looking up in Ironton and before another full year rolls around she will be drawn closer to Portsmouth by a permanent highway.

In the stress of convention doings census reports have received rather slight attention for a fortnight. They all, however, show one trend, the star of empire still moving in its course westward, with southern towns, as a rule, making substantial gains, while those in such strong industrial eastern states as Pennsylvania and for in all Southern Ohio and far back in Kentucky. The census bureau has taken to giving out the population of counties and may be expected to make some announcement on states before the summer has waned.

Thomas Morris, of Broken Bow, Nebraska, has just died at the age of 127. Unfortunately addition to stimulants brought him to an early and untimely death. All his life long he had used whiskey regularly and when prohibitory put it out of his reach he sickered and sank gradually to the end.

To be sure England loves us more than ever. That's the reason why she refuses Kentucky's request to return to her the state flag she captured at the battle of Raisin river, in the war of 1812. She wishes to retain it as moments of her warm affection.

If you do not take the Sunday Times you are missing a good thing. It finds favor as far north as Wellston and is eagerly sought in Wellston, Adams county and far back in Kentucky. The merchant who wants tributary trade should use it.

The world quickly drifts back into its old ways. There has just been a revolution in Bolivia and the government was overthrown, as usual.

Report out yesterday there was only sugar enough on hand to run the town a few days. And a wholesale dealer told us there was more sugar hoarded than the warehouses ever held at one time.

Tuesday the Ohio was standing exactly at 13 feet. Is the number lucky or unlucky?

POLLY AND HER PALS

LOUIS THE LAWYER

New-York - Day-By-Day

BY G. O. MINTIRE

NEW YORK, July 15.—Professional spoofing is at times costly. Overlooking Broadway there is a suite of rooms where the card-strippers, lay-out men, book illustrators and cartoonists turn out their deathless creations for a chain of newspapers.

A good many years ago a gawky boy who scared all feet and freckles secured the post of office boy and general carrier of artistic work. Two days later he won the sobriquet of "Stupid." When the lad wasn't busy they would give him a bucket and send him down to Park Row after a basket of editorial.

He would come back with an aching broken back and a bucket filled with lead linotype slugs. They sent him scouring the neighborhood for wall paper stretchers and ten wrenches. He bore his burden with cheerfulness. He bore his burden with cheerfulness and always smiled.

Once they sent him to the brink of the Hudson with a shovel and detailed instructions to push the river back. He worked dutifully until a cop chased him. But the office boy finally turned and one day when a particularly rare joke was played on him he revolted and walked out.

That was the last word of "Stupid," until recently when the news went zipping around the office that the keen executive was coming to the place with full power to act as ideas man. He was to furnish ideas and tips suggestions into artistic worth.

At the yachting races off the Hook one saw a strange sight. The yachting writers dress in white trousers, blue coats and jaunty caps. One could not but think of Irvin Cobb in trucks covering a prize fight. All the yachtsmen put in at Greenwich, Conn., and one club there had 58 millionaires sleeping under the one roof. And as sharp call down for lateness. "Stupid" never referred to his former job and neither has any reference been made to it by those who work amounting to \$145.

PREMIER MEIGHEN

Arthur Meighen, Canada's new prime minister, is forty-four years old. He is like his predecessor, affiliated with the Conservative branch of the Unionist party. Mr. Meighen has represented a Manitoba constituency in the Dominion parliament since 1908. He is the first man from the Canadian west to attain the rank of premier.

The resignation of Sir Robert Borden has brought no crisis.

It has merely entailed a change of Unionist leadership.

Premier Meighen will continue the policies of his predecessor.

Neither the official opposition of the Liberal remains for the unofficial opposition of the National Progressives, or Farmers' Group, gains in strength by the change. The Unionist party, which still appeals to Canadian nationalists as the party which "was the war," is as strong as ever, and Mr. Meighen's leadership promises to be of long duration.

Although Arthur Meighen is regarded as a young man his twelve years of active political life have been eventful. In 1913 he was appointed solicitor general of Canada, which position he held till 1915, when he was sworn in as a member of the privy council. He became secretary of state in August, 1917, and secretary of the interior in October of the same year.

It was during this eventful year that the Unionist party was formed by the coalition of the Conservatives and Royalist Liberals and Mr. Meighen took a prominent part in the coalition negotiations and in the compulsory military service debate which immediately followed. He is a man of energy and forcefulness, and his leadership will be agreeable in a large majority of Canadians.

Back On The Farm

They said, "You must be lonely back here upon the farm."

I looked at them in wonder, and I wonder at it still;

They did not know the mountains with

their never-winding charm,

Or the glory of the setting sun upon

the western hill.

There in the fine old homestead, girt

round with orchard trees,

No queen upon her royal throne was

happier than I;

The garden with their singing birds

Were little plots of paradise roared

by a summer sky.

The herds that grazed the pastures,

The white geese by the bank,

The social chit of hens and chicks,

The old dog, sheepdog,

All these, the guardians of the farm;

and everywhere well-kept.

The intricacies of nature unfolding to

our eyes.

The children trudging off to school, the

good man in the field,

The evening hour around the hearth,

all there, and safe from harm,

I turn the pages of the book, so many

chapters settled.

And knew life gave me of its best

back there upon the farm.

"I don't want to go up," wailed Winnie again.

"Let her wash them down here," called grandpa.

"She can do just as well." No, her mother said firmly, "I want her to come up with me."

Winnie came upstairs as easily as possible. "Oh," she said, turning a wretchedly tearful face to the pilot, C. J. Zime, whom came down to within 50 feet of the ship's mast and dropped the mail bag.

"Yes—he discovered that he wanted to go to bed early."

BILLY WHISKERS

BY FRANCES TREGO MONTGOMERY

Stubbly's rolls and laughter at Billy's joke were cut short by hearing a great clatter of horses' hoofs on the hard road behind them.

"Harry and Ibbie, Harry! It must be a party of Mexicans racing on their way home from the midnight," he burked.

Billy was right. They were Mexican cowboys on in a lark. When they saw Billy's head sticking above the bushes, one said in broken Spanish "Now for some fun," at the same time unsheathing hislasso from the pommel of his saddle, where it always hung and with a twirling tongue, uttered this cry, "Cheer-oo-oo!" He swinging the lasso three times around his head and as he did so the loop widened and lengthened until a blinding sound it descended, encircling Billy's neck and the next second he

was jerked over the back he was being belted and dragged at a fast run after the cowboy who was spurred his pony to catch up with those who were ahead.

"Well Carlos, what have you there?" called one of the boys when he saw him dragging Billy behind him.

"I've got a dandy Billy goat. Now you fellows see what you can do and when we get back to the ranch we will raffle off what we catch or cook them for supper."

"Good for you Carlos. That will be work. There I see something now I'm going to lasso to Billy," shouting Stubbly when was following after Billy as fast as he could for he would have followed Billy into the jaws of death, if need be.

Billy Shubly was very much surprised to feel a rope tighten around his neck and the next minute feel himself suspended from the ground to the saddle before the cowboy, where he was held as they galloped on in their mad race toward the ranch where the cowboys lived.

It is astonishing what some cowboys can do with a lasso and how expert they may become in its use.

Presently one of the boys spied a big turkey buzzard sitting on top of a cactus plant and with a whoop like an Indian he was after it.

Before Mr. Buzard had time to spread his wings and fly, he felt something hot twist around his neck, and the last thing he heard in this world was a merry laugh go up from the rowdies at the idea of lassoing instead of shooting birds.

Soon a terrible squealing was heard just ahead of where one of the cowboys had ridden, and when the others caught up to him they found he had succeeded in lassoing a brown and sandy-colored pie.

"Good for you, Jake. Now we will have some roast pork and goat chops for supper and we will throw the bones in the turkey-buzzard."

They did not know then that the big buzzard's neck was broken.

OHIO RIVER DAM 31 CHRISTENING THIS AFTERNOON

Boats Are To Leave On Trip At 2:15 New Time

Everything is in readiness for the big event of the year, one that has been looked forward to for some months, the christening and initial opening of Dam 31, in the Ohio river several miles below this city. The christening of the dam will take place at 3:30 o'clock this afternoon, when Mrs. Fred Winter will break a bottle of champagne on the dock. She is the wife of Fred Winter, who has long been identified with river work here and the Dam Celebration Committee. Wednesday decided that this honor should go to her, after word was received yesterday that Mrs. Gordon C. Greene, the only woman pilot on the Ohio, could not be present at the dam opening.

Several thousand people are expected to take part in this event, which will be a memorable one in the history of the Peerless City. The completion of the dam is another link in the establishment of a nine-foot stage in the Ohio river the year round, which will insure river traffic all 12 months of the year.

Every one in the city is invited to participate in the celebration. There will be plenty of boats on hand to carry the crowd, no matter how many may be in the throng. Besides the local persons taking part, there will be close to 100 visitors from out of the city who came here on purpose to attend the celebration.

These special guests have been invited by the Chamber of Commerce, which organization has been busy the past few weeks making all arrangements for the official opening of the lock and dam.

Guests began arriving last night. Among those who arrived there were Congressman C. C. Kearns of Amelia, O., Colonel M. L. Walker, and Colonel Earl E. Brown, S. A. Thompson, of Washington, D. C., Walter A. Windsor, Polit Pleasant, C. D. Dotson, William Kennedy, W. B. Kilbaugh and H. S. Newton, of Parkersburg. Others arrived at midnight, while the larger number of visitors are expected this morning.

The committee in charge of meeting guests at the train is composed of H. E. Taylor, J. A. Bode and Stanley S. Pritchard. The first boat to arrive was the U. S. S. Snug boat E. A. Woodruff, which came here Wednesday afternoon from Fersbank below Cluettville. Master Guy A. Smith is in charge of this boat, which will be the flagship of the 10 boats which will make the trip to the dam. The Woodruff will carry the executive committee and will be the boat to be locked and will be the dam. This will be the first boat to pass through the lock.

Other boats secured to carry the crowd to the dam, are the Government Boat Curuga, J. P. Hartfield, Sallie Marmon, Chris Greene, Whittleton City of Ironton, Belle G. Edgington, Robert P. Gilliam and Maggie J. All these boats will be at the foot of Market street, and the boats will be loaded at the wharf boat.

There is no need to worry about the med at the dam, for there is plenty of concrete space for the crowd. The concrete space on the Kentucky side is 600 feet long and 300 feet wide.

Floyd Fuller and Manager J. B. Wilcox form the reception committee at the Washington hotel where all guests are to be registered. Paul Davidson and Fred Winter form a committee in charge of putting the crowd on the boats. W. A. Pepper has had charge of the work of putting a number of auto mobile owners to provide their cars to give the guests a drive over the city after the return from the dam. William Zottman has been named Grand Marshal of the parade to form at the Chamber of Commerce and march to the boats.

The program of the day included registration and reception of guests at hotel from ten o'clock until 2. At 1:45 the river city band will give a concert on Government Square and at two o'clock will head the parade to the wharf boat. The hundreds who intend to make the trip are requested to meet at the Chamber of Commerce, where they will form in line for the parade. The parade will move from the Chamber of Commerce at two o'clock sharp. At 2:15 the boats will be loaded and at this time the boats will sound their whistles for a period of about five minutes.

At 3:20 the boats will arrive at the dam and at 3:30 the christening will take place. At 3:45 the Woodruff will be locked through the dam while men in uniform cameras will be away, recording the scene that will be shown in Weekly News all over the country.

At four o'clock short talks will be made by Col. Walker and Col. Brown of Cincinnati and Mr. Thompson of the National River and Harbor Com-

IRONTON HOPES FOR BRIDGE FROM FORD

Ironton is still hoping for a bridge across the Ohio, judging from the following from the Irontonian:

The purchase of the D. T. & L. line by the Ford's has aroused much speculation in this city and vicinity as to the possibilities for local development attendant upon the conclusion of the deal. There are many and diverse opinions but the consensus of expression seems to be that the deal will eventually mean the bridging of the Ohio River in this section and logically at Ironton, in order to make

the connecting link in transportation facilities from the Hardin county, Kentucky fields purchased by the Ford interests.

It is also deemed very probable that there will be a general improvement of the D. T. & L. system and that Ironton may become a distributing point for the Ford products for this section of the country. At any rate the reflections of the big deal are being closely watched and everybody is hoping that the anticipations will be fully realized.

The executive committee and those who have signed up to attend the banquet tonight are as follows:

Russell Becker, J. J. Hardin, Alan N. Jordan, Gen. E. Carlige, F. R. Bachman, St. Straus, E. C. McCoy, Harry Taylor, F. C. Fuller, Gro. E. Mathews, James G. Bauer, W. R. Knapp, Albert Zoellner, G. W. McGOWAN Funeral

The funeral of Mrs. Mary Elizabeth McGowan, widow of the late William McGowan, will be held from 697 Market street at 1 o'clock Friday afternoon. Friends invited.

Mer Way.

I was teaching school and as I had the primary room on the lower floor was considerably annoyed by the boisterous way in which the high school pupils came downstairs. The teachers held a consultation and I was appointed to speak to the principal concerning the matter. As a result, I stopped him one day on the landing. Just when I had finished my speech I lost my balance and went rolling down the steps. When I arose the principal smilingly said, "Is that the style you desire the students to use?"—Chicago Tribune.

Head New Third Party

(Continued from Page One)

Sixty clergymen, they said, was at work. C. J. France of Seattle, member of the conference platform committee, revealed the inside story of what he said had transpired in the session of the platform committee Tuesday night. His version was challenged by Gilson Gardner, signer of the minority report and still another account of the affair was offered by Robert M. Black, labor leader and speaker of the majority platform.

Amidst the uproar, when delegates in every corner of the hall were clamoring to speak, Gilbert E. Roe, La Follette's personal representative, said in word that the senator would not under any circumstances become the party nominee on the majority platform, adopted soon afterward. Removal of La Follette as an anchor for the less radical forty-eighers left them free to be sheared aside by what they described as a "cleric" name.

The appeals went unheeded and the battle already approved by the labor and farmer groups when through a lurch.

The list of names placed in nomination for president included besides Christopher, Dudley Field Malone, New York; Eugene V. Debs, the Socialist candidate; Henry Ford, Detroit; Louis F. Post, assistant secretary of state; Governor Lynn J. Frazier of North Dakota; Jane Adams of Hull, Illinois, and several others.

After the ballot the convention voted to nominate an excepting Christian and Malone, the two leaders, and adjourned a vote on the several lists.

Now the little excitement for the new party's government was born at Worcester, Mass., on Wednesday. From early last summer the efforts of the children of the church, a group of young people, to get the church to adopt the name "farm-labor" as a party designation. They contended that the "white collar slaves" and eastern liberals, both small merchants and professional men, would be driven away by what they described as a "cleric" name.

Use Glass Sounding Board.

Glass plate was used in the construction of a sounding board that

is improved the acoustic properties of a Detroit church, according to Popular Mechanics magazine. These panels of heavy glass are set in an oblong frame of steel which is attached to a wooden pole by wires from the center and suspended over the pulpit by cables fastened at either end of the pole.

A heterogeneous electric fan is the only power source of the entire

acoustic sounding system. The electric current generated is very slight indeed. Fans consisting of

as much as 100 blades each are used to move the air around the glass plate.

For Dyspepsia.

For dyspepsia there is nothing better than sour milk. It should be made

preferably by adding salt or sugar, according to taste. Sprinkling a little

chamomile tea on it will cool

it down.

the lad shortly after noon Wednesday,

and returned about 5:30 yesterday

after being brought home, the lad

had been lost in the woods, and he got all the way to Vanceburg so

far alone, after wandering around for some

time, finally landed on the road

toward Vanceburg. He started to walk

toward Vanceburg, but he must have ridden "there is little place."

Miss English and Mr. Wood left for

Vanceburg in the Wood machine to get
